A PAVER LAYOUT PLAN
SCALE: 1" = 1'-0"

General Notes

WWW HQ

Upon acceptance of this plan, it is agreed that these plans are merely an instrument to aid in the process of removals, layouts and installation of the items as shown or shop drawings as indicated. This plan has been compiled via professional survey as supplied by the owner, and data collected in the field and information as supplied by the owner in which the project resides. This plan depicts the above referenced information, however, unforeseen items, such as incorrect data/dimensions on said survey, unknown underground utilities, structures, bedrock, abandoned drywells, tree stumps and root systems, etc. may alter certain items as shown on this plan

All design layouts as shown on this plan will require additional field measurements prior to demolition/construction and may be subject to on-site adjustment (i.e. - grading/elevations, steps, drywells, topsoil, etc.)
